

Prison Rape Elimination Act (PREA)

The Prison Rape Elimination Act of 2003 (PREA, P.L. 108-79) was enacted by Congress to address the problem of sexual abuse of persons in the custody of U.S. correctional agencies. The Act applies to all public and private institutions that house adult or juvenile offenders and is also relevant to community-based agencies. It addresses both inmate-on-inmate sexual abuse and staff sexual misconduct.

DYRS has a zero tolerance for any incidence of sexual activity with youth in our care. DYRS commits to full compliance with PREA and all criminal laws.

In compliance with PREA reporting standards, the list below are the Calendar Year 2013 PREA Incident Reports filed in DYRS. As with any institutional abuse reports that involve children in our facilities, each incident is independently investigated by the DSCYF Institutional Abuse unit.

Nancy Dietz, Director, DYRS

Division Annual Review of PREA Incidents

State Run Facilities

Every reportable event, whether PREA related or not, is reviewed by the facility Superintendent, Division Director, and Deputy Director. If the incident involves child abuse in the facility, the Department’s Institutional Abuse Unit would investigate the incident to determine if there is sufficient evidence for further investigation. The facility Superintendent also investigates whether proper policies and procedures were followed.

The above table shows there was only one PREA related incident, which was determined to be unfounded.

Delaware Youth placed in Contracted Residential Facilities

Reportable events that involve a Delaware youth are investigated by that provider’s investigation procedures, and if applicable, the governmental agency that would investigate child abuse (county, township, state, etc.). Any event that involves a DYRS youth would be documented and communicated to the DYRS probation officer and the Department Contracts unit.

The above table shows there were no PREA related incidents reported in CY-2013.
